

The **PX-1000** series is available in Zero U (vertical mount) and 1U (horizontal mount) form factors with a wide variety of NEMA, IEC and other plugs and receptacles, including models which support high power distribution such as 400V. Precise power information can be monitored, and the PX-1000 configured, via a user-friendly Web browser GUI or command line interface. Power information is also displayed at the PDU locally. Security is ensured with up to 256-bit encryption, strong passwords and advanced authorization options, including permissions, LDAP/S and Active Directory. Plus the PX-1000 series is fully compatible with Raritan's Power IQ energy management software solutions.

To find the PDU that best fits your needs, choose your selected model from the table below.

VAC	Outlets	Rack Units	Amps Per Phase					
			≤16	20	30	32	50	60+

The **PX-2000** series is available in Zero U (vertical mount) and 1U (horizontal mount) form factors with a wide variety of NEMA, IEC and other plugs and receptacles, including models which support high power distribution such as 400V. The PX-2000 supports individual outlet switching. Precise power information can be monitored, and the PX-2000 configured, via a user-friendly Web browser GUI or command line interface. Power information is also displayed at the PDU locally. Security is ensured with up to 256-bit encryption, strong passwords and advanced authorization options, including permissions, LDAP/S and Active Directory. Plus the PX-2000 series is fully compatible with Raritan's Power IQ energy management software solutions.

To find the PDU that best fits your needs, choose your selected model from the table below.

The **PX-3000** series is available in 1U (horizontal mount) form factors with AC terminal strips, IEC C-20 plugs and IEC C-19 receptacles. Precise power information can be monitored, and the PX-3000 configured, via a user-friendly Web browser GUI or command line interface. Power information is also displayed at the PDU locally. Security is ensured with up to 256-bit encryption, strong passwords and advanced authorization options, including permissions, LDAP/S and Active Directory. Plus the PX-3000 series is fully compatible with Raritan's Power IQ energy management software solutions.

To find the PDU that best fits your needs, choose your selected model from the table below.

VAC	Lines	Rack Units	Amps Per Phase			
			16	20	30	32
100-240	2	1U	PX-3211 , PX-3220	PX-3211 , PX-3220	PX-3220	PX-3220
100-240	4	1U	PX-3411 , PX-3420 , DPXR4X1A-16NP	PX-3411 , PX-3420	PX-3420 , PX-3423	PX-3420
3PH 380 - 415V	1	Zero			PX2-3172	PX2-3172
3PH 190 - 415	2	1U			PX-3270	PX-3270
3PH 190 - 415	3	1U			PX-3370	PX-3370

Note 1: PX-3211 and PX-3411 operate at either 16A or 20A depending on the cord set chosen.

Note 2: PX-3220 and PX-3420 operate at up to 40A (32A rated) per line depending on the wiring in the data center.

The **PX-4000** series is available in Zero U (vertical mount) and 1U and 2U (horizontal mount) form factors with a wide variety of NEMA, IEC and other plugs and receptacles, including models which support high power distribution such as 400V. Precise power information can be monitored, and the PX-4000 configured, via a user-friendly Web browser GUI or command line interface. Power information is also displayed at the PDU locally. Security is ensured with up to 256-bit encryption, strong passwords and advanced authorization options, including permissions, LDAP/S and Active Directory. Plus the PX-4000 series is fully compatible with Raritan's Power IQ energy management software solutions.

To find the PDU that best fits your needs, choose your selected model from the table below.
