

Support Arm for Monitor

CONNECT AND PROTECT

For Electronics Cabinets in Test and Measurement

Modern support arm for mounting a flat screen monitor, keyboard and mouse in industrial or laboratory environments. Thanks to perfectly harmonized components, installation on your electronics cabinet can be installed by one person within a few minutes.

FEATURES AND BENEFITS

The support arm allows screen tilting with optional swivel and rotation functions for individual needs. The keyboard can be folded up to save space. Cable management within the wall duct is available as another space-saving measure.
