The Most **Reliable**
Storage For Industries

SV25C-25

Cloud
Series

SV25C-25

Overview

Apacer's SV25C-25 is a well-balanced solid-state disk (SSD) drive with standard form factor and great performance. Designed in SATA 6.0 Gb/s interface, the SSD is able to deliver exceptional read/write speed, making it the ideal companion for heavy-loading industrial or server operations.

Cloud Series

SV25C-25 utilizes 3D NAND for higher capacity up to 960GB and provides more power efficiency than 2D NAND. Regarding reliability, SV25C-25 is implemented with LDPC (Low Density Parity Check) ECC engine to extend SSD endurance and increase data reliability. In addition, the drive comes with various implementations including powerful hardware ECC engine, power saving modes, Wear Leveling, flash block management, S.M.A.R.T., TRIM, and DataDefender™.

In terms of security, Advanced Encryption Standard (AES) ensures data security and provides users with a peace of mind. Furthermore, with End-to-End Data Protection, data integrity can be assured at multiple points in the path to enable reliable delivery of data transfers.

SV25C-25

Ensures Highly Efficient System Operation with DBS Cloud Edition

Apacer SV25C cloud series SSDs are equipped with Double-barreled Solution: Cloud Edition. Double-barreled Solution: Cloud Edition is a solution designed to monitor the typical pain points of an IoT edge device network. DBS Cloud Edition automatically collects data related to SSD temperatures, unexpected power outages, remaining lifespan, and operating status, and instantly transmits the data to the back-end management platform. Users can then observe this data as it comes in, thanks to the intuitive dashboard interface.

In the event of an abnormality, the system can also send messages to network administrators through Email, LINE, WeChat, and other communication platforms, so that admins can react to critical events in real-time even if they aren't on location. The alerts can even be color-coded to allow admins to determine the severity of a problem at a glance.

Existing Integrated Remote Device Management Systems

Apacer has also collaborated with Advantech and Allxon to develop the DBS Cloud Edition. It offers customers greater choice in deploying and remote device management system and adds flexibility while retaining seamless integration to significantly reduce customer deployment time and costs.

Cloud
Series

Supports CoreSnapshot technology, data recovery is completed in one second

In addition to convenient remote management functions, the Apacer SV25C cloud series starts from the Disaster Recovery level and integrates Apacer CoreSnapshot technology, which can provide an SSD backup and recovery mechanism in real time when key data is lost or system crashes occur. Only one second is required for the system to return to normal operation, greatly reducing the waiting time for troubleshooting and system downtime.

Feature

- Adopts advanced LDPC ECC engine with 3D NAND flash memory to improve reliability
- Global Wear Leveling
- Flash bad-block management
- Flash Translation Layer: Page Mapping
- S.M.A.R.T.
- DataDefender™
- Device Sleep
- ATA Secure Erase
- TRIM
- Hyper Cache Technology
- Over-Provisioning
- DataRAID™
- SMART Read Refresh™
- Double-barreled Solution Cloud Edition

Specifications

Model	SV25C-25
Interface	SATA 3.2 (6Gb/s)
Connector	(7+15) pin male
Form Factor	2.5"
NAND Flash Type	3D TLC
Capacity	30GB~960GB
External DRAM	No
Sustained Read Performance (MB/sec)	Up to 560
Sustained Write Performance (MB/sec)	Up to 520
ECC Engine	Low-Density Parity-Check (LDPC) Code
IOPs (4K Random Write)	73K
Standard Operating Temperature (°C)	0 ~ + 70
Extended Operating Temperature (°C)	-40 ~ + 85
Storage Temperature (°C)	-40 ~ + 100
Thermal Sensor	Yes
Shock	Operation: Acceleration, 50(G)/11(ms)/half sine (compliant with MIL-STD-202G) Non-operation: Acceleration,1,500(G)/0.5(ms)/half sine (compliant with MIL-STD-883K)
Vibration	Operation:7.69(Grms), 20~2000(Hz)/random (compliant with MIL-STD-810G) Non-operation:4.02(Grms), 15~2000(Hz)/random (compliant with MIL-STD-810G)
Operating Voltage	5.0 V ± 5%
Power Consumption	Active mode: 330 mA / Idle mode: 95 mA
Dimension (L x W x H)	7mm:100.00 x 69.85 x 6.90 (mm)
MTBF (hours)	>3,000,000

Mechanical Specification

Unit: mm
